TITLE	Texas Special Libraries Directory, 1979.
INSTITUTION	Texas State Library, Austin. Dept. of Library Development.
PUB DATE	80
NOTE	96p.
EDRS PRICE	MF01/PC04 Plus Postage.
DESCRIPTORS	Institutional Libraries; Law Libraries; Librarians; Library Collections; Library Surveys; Medical Libraries; Questionnaires; *Special Libraries; Tables (Data)
IDENTIFIERS	Library Statistics; *Texas

ABSTRACT

This listing of special libraries in the state of Texas enters libraries alphabetically under municipality and provides the following information for each: name and address of library, phone number, hours of service, availability of teletypewriter exchange services, name of head librarian, staff size, number of volumes held, number of periodical titles received, number of maps held, number of microforms held, availability of lending privileges, availability of photocopy services, subject specialties, and names of library publications, if any. Libraries are indexed by name, subject area, and librarian. Appendices contain a summary of data gathered through a special library survey and a sample of the survey questionnaire. (FM)

FORWARD

The 1980 edition of the TEXAS SPECIAL LIBRARIES DIRECTORY is the eighth in the series since 1965.

The mailing list consisted of a combination of the mailing list used in 1977 and the membership list of the Texas Chapter--Special Libraries Association. Close to 230 libraries are included in this directory covering a wide variety of subjects and interests. The editorial committee wishes to express their thanks to the responding libraries for taking the time to make this directory a continued success as well as a useful research tool.

The 1980 DIRECTORY is the result of a joint effort of the Texas State Library and the Texas Chapter--SLA. Sincere appreciation is expressed to the members of the Library Development Division of the Texas State Library and the SLA Editorial Committee for their time and hard work in preparing this directory for publication.

Judith G. Hackney

Library Publications:

Please list names and addresses of other libraries which should receive this form:

PLEASE RETURN BY December 31, 1979
to Texas Chapter, SLA
Publications Committee
7622 Litchfield
Spring, Texas 77373

PLAN OF THE VOLUME

Each special collection is listed alphabetically by organizational name under the city in which it is located. Military installation libraries are listed alphabetically under the name of the installation.

Lending Policy:

Throughout the Directory, the question of lending of materials applies to loans to libraries only, unless otherwise stated under each entry.

Copying Service:

The price quoted is, in all cases, a charge per page, unless otherwise stated under each entry.

Subject Index:

Each library has been listed under major descriptive terms. Additional subject keywords are included with some entries and may help to further define the emphasis of the collection.

Lends: No (only to other libraries and special libraries for use on their premises)

Photocopying service: No

Subject specialties: Common Law; Constitutional Law; and International Law and Treaties

APPENDIX A

Summary Data for the Special Libraries' Statistical Survey

The following tables summarize responses received in a statistical survey which was conducted in conjunction with the special libraries' directory survey. The tables present data for all reporting institutions. Appendix B, which follows this section, presents the survey form and instructions utilized in this survey.

Items regarding the number of reports and the number of responses compiled are reported in these tables. These items are presented for two reasons: first, with these figures, the user should be able to compute averages and percentages in the manner s/he feels appropriate; second, these counts of responses should enable the user to develop some feel for the amount of confidence s/he may have in whatever type of analyses or compilations which may be performed on this data. It was felt that presenting the data in this manner would provide sufficient information and flexibility for most purposes.

The staff of the State Library would like to express their appreciation to all libraries which participated in this survey. Questions, comments or suggestions regarding this section of the Special Libraries Directory should be directed to:

Mitchell Gidseg, Statistician
Planning & Management Department
Library Development Division
P.O. Box 12927/Capitol Station

b. Non-returnable	10,466	37
c. Total ILL from other libraries	21,705	43

Texas State Library

INSTRUCTIONS AND DEFINITIONS

GENERAL

Definition of "Special Libraries": For the purpose of this survey, a special library is:

1. A physical collection of information, knowledge, and/or opinion limited to a single subject or a group of related subjects, or to a single format of information, or a group of related formats;
2. Organized under the aegis of an organization which provides funds for its continuance;
3. Administered by a librarian or a specialist in the subject or subjects covered; and
4. Carrying the mission of acquiring, organizing, and providing access to information and knowledge in furtherance of the goals of the parent organization.

Time Periods Covered: In this form, information is requested for two time periods: (1) last complete fiscal year, and (2) a typical week; and as of two points in time: (1) end of last complete fiscal year, and (2) date of this report. A fiscal year is a one-year period, at the end of which a library determines its financial condition and the results of its operations, and closes its books (usually determined by the fiscal year of the parent organization). The fiscal year referred to in this report is the one most recently completed prior to the date of this report. A typical week is a week containing no holidays.

Estimates: If an exact figure is not available for a particular item, but the amount is known to be greater than zero, enter an estimate of the amount. Indicate the fact that the figure is an estimate by enclosing it in parentheses ( ).

SPECIFIC

SECTION II:

II.A. Current Periodical Subscriptions. A periodical is a publication constituting one issue in a continuous series under the same title published at regular or irregular intervals, over an indefinite period, individual issues in the series being numbered consecutively or each issue being dated. Newspapers as well as publications appearing annually or less frequently are included in the definition. Report number of titles subscribed to, and not number of individual issues.

II.B. Holdings - Added During Last Complete Fiscal Year. Report the gross number added during the most recently completed fiscal year. Do not subtract the number withdrawn.

II.B.1. Bookstock. Report the library's cataloged collection of books and other printed materials that are cataloged as books and that are interfiled with, or that may be interfiled with books.

a. Volumes. For reporting purposes, a volume is a physical unit of any printed, typewritten, handwritten, mimeographed or processed work contained in one binding or portfolio, hardbound or paper bound, which has been cataloged, classified or made ready for use.

b. Titles. For reporting purposes, a title is a publication which forms a separate bibliographic whole, whether issued in one or several volumes, reels, discs, slides or parts. It applies equally to printed materials, such as books and periodicals, as well as to audiovisual materials and microforms. Report the number of items for which a separate shelflist card has been made.

II.B.2. Unbound, Non-Current Periodicals. Report the number of volumes and titles (see definitions above) of complete and nearly complete sets of back issues of periodicals which are kept unbound. Do not report (1) the number of bound periodicals, which should be reported in B.1. a. and b., (2) non-current periodicals in microforms, which should be reported in B.4.b., and (3) current periodicals, which should be reported in II.A.

II.B.3. Technical Reports and Government Documents Not Cataloged but Arranged For Use. Report printed technical reports and government documents housed in separate collections. Do not report technical reports and documents which are cataloged in the same manner as books (these are to be reported in II.B.1.).

II.B.4. Microforms. Report book titles on microform in 4.a., and periodical titles in 4.b. Each item of microfiche, microfilm, and microcard, not included in 4.a. or 4.b. should be counted as "one" and included in 4.c.

II.B.5. Audiovisual Materials. These are non-book, non-microform library materials which require the use of special equipment in order to be seen and/or heard. Report titles on video tapes, by format in a(1) through a(4). Report titles on film, by format, in b(1) through b(5). Audiovisual materials not included in sections 5.a. or 5.b. should be included in 5.c.

II.B.6. Other Library Materials. These are non-book materials which do not require the use of special equipment to be seen and/or heard.

II.E. Total Floorspace. Include public service area, work area, stack area, and storage area. Do not include foyers, corridors, stairways, cafeterias, restrooms, heating plant area, or meeting rooms and conference areas.

SECTION III:

III.1. Full-Time Staff. Report all paid employees who work the full work week established by the library, if the full work week is 32 hours or more. If the work week is less than 32 hours, report all employees as part-time employees.

III.2 & 3. Part-Time Employees. Report all paid employees who work less than the full-time work week for your library or who work less than 32 hours.

III.3. Full-Time Equivalents of Part-Time Employees. To compute full time equivalents (FTE's) of part-time employees, take the number of hours worked per week by a part-time employee and divide it by the number of hours in your full time work week. If your full time work week is less than 32 hours, divide the hours in each employee's work week by 40 hours.

III.4 & 5. Annual Salaries and Wages. Report the salaries and wages, before deductions and exclusive of fringe benefits, of the library staff on the date of this report. Salaries and wages should be reported on an annual basis separately for full-time and part-time employees.

III.A. Director or Head of Library. Report the person who has the chief administrative responsibilities for the library's operations. Indicate in the appropriate space (yes or no) whether or not this individual has an MLS (Masters Degree in Library Science).

III.B. Other Librarians. Include staff members doing work that requires professional training and skill in the theoretical or scientific aspect of library work, as distinct from its mechanical or clerical aspects. Exclude the director or head of the library.

III.C. Other Professional Staff. Report persons who, though not librarians, are in positions normally requiring at least a bachelor's degree.

III.D. Technical, Clerical, and Other Support Staff. Include staff members not included in III.A - III.C. Do not include maintenance or custodial staff.

SECTION IV: Library Operating Expenditures (last complete fiscal year). Report all costs incurred in the rendering of library services by the category listed. Report expenditures from all sources in whole dollars only.

SECTION V:

V.B. Outside User and General Public Access. General public is a broad category which includes outside users. Both terms refer to persons who are not directly connected with the parent organization. Indicating that the library serves outside users but does not serve the general public would mean that the library will serve a specific group of non-employees (e.g. other lawyers, other special librarians, serious researchers, etc.) but not just anyone who comes into the library. If a library indicates that it serves the general public it will also serve outside users.

V.D. In-House Use Count. Report the number of times material was utilized by patrons but did not result in a transaction which would be included in V.C.

V.E.1. Items Abstracted. Report the number of times the library staff summarized for use a scientific or scholarly paper or report in order to render in brief form the essential factual content.

V.E.2. Items Indexed. Report the number of items included in arrays of references to topics, names, or titles in books and periodicals, or to reports, patents, and other non-book materials. Exclude normal cataloging operations.

V.E.3. Bibliographies Prepared. Report the number of times members of the library staff prepared a list of references to library materials organized for a particular use or relating to a particular subject.

V.E.4. Other Reference Transactions. A reference transaction is an information contact which involves the use, recommendation, interpretation, or instruction in the use of one or more information sources, or knowledge of such sources, by a member of the library staff. Information sources include:

1. print and non-print materials;
2. machine readable data bases;
3. library bibliographic records, excluding circulation records;
4. other libraries and institutions; and
5. persons both inside and outside the library.

A question answered through utilization of information gained from previous consultation of such sources is considered a reference transaction even if the source is not consulted again. Exclude items abstracted, items indexed, and bibliographies prepared, which should be included in V.E. 1, 2, and 3. Exclude directional transactions which are information contacts which facilitate the use of the library in which the contact occurs.

V.F. Interlibrary Loan Transactions. Report the number of items in original and reproduced format provided to and received from other libraries or library agencies that are not under the same administration in response to specific title, author, or subject requests; exclude transactions by dial access.

1. Number of items abstracted _____
2. Number of items indexed _____
3. Number of bibliographies prepared _____
4. Number of reference transactions not included in E(1) through E(3) _____

(5 and 6: as of date of report)

5. Does library obtain reference or bibliographic services by contract?

   _____ Yes _____ No

6. Does library supply reference or bibliographic services by contract?

   _____ Yes _____ No

   If Yes, describe fee structure for reference or bibliographic services provided by library:

   _____

   _____

   (attach additional sheets if necessary)

F. Interlibrary Loan Transactions *(last complete fiscal year)*

1. ILL to other libraries (items)
   a. Returnable _____
   b. Non-Returnable (e.g. photocopy) _____
   c. Total ILL to other libraries (sum of a and b) _____
2. ILL from other libraries (items)
   a. Returnable _____
   b. Non-Returnable (e.g. photocopy) _____
   c. Total ILL from other libraries (sum of a and b) _____

VI. UNITS COVERED IN THIS REPORT

Please identify all library units (name and address) for which data is included in this report, which are at a location different from that identified in Section I of this report.

_____

_____

_____

_____

_____

(attach additional sheets if necessary)
